CLUBTEX unites 80 members

- 69 companies in France and in the Euro region (Northern France and Belgium)
- 4 training centers and schools
- 3 R&D institutes
- 3 Textile organizations

CLUBTEX is located in Tourcoing in Northern France which has acquired expertise in textile manufacture over several centuries. The EuroRegion, Northern France with Belgium, truly represents a “**Technical Textile Valley**” which stands head and shoulders above the European competition.

Within a 200km radius around Lille, innovative textiles represents:

- **380 companies**
- **4,8 billion € turnover,**

The major actors in training and research dedicated to technical textiles are found in the Lille Region:

- IFTH (*the French Textiles and Clothing Institute*)
- ENSAIT (*National School of Engineers in Arts and Textiles Industries*) – CLUBTEX member
- HEI- YNCREA Textiles Dept. (*Higher School of Engineers in Industrial Techniques and Textiles*) – CLUBTEX member
- CENT (*European Centre for Non-woven Textiles*) – IFTH
- CETI (*European Centre for Innovative Textiles*) – officially launched in 2012, the technological platform runs innovation and product development in the extrusion, spinning and nonwoven technologies as well as digitalization and recycling.

A unique scientific network: CETI, ENSAIT, CENTEXBEL, IFTH, UGHEENT, HEI, IMT Douai, University of LILLE, NANOTECH INSTITUTE, IEMN, University of Valenciennes

A region that trains 17% of textile Engineers & PhD in Europe

Innovation together!

The business network!

CLUBTEX partnerships

FUTUROTTEXTILES is a mobile exhibition module combining science, technology and art on textiles. It took place for the first time at the end of 2006 in LILLE and was organized by Lille3000 with the valuable assistance of CLUBTEX: It has been presented in the French Pavilion, at the Expo 2010 in Shanghai. **FUTUROTTEXTILES 2012** has been launched at CETI International Forum and has begun its international tour in order to present a large selection of these concrete visions of tomorrow's textile. **TEXTIFOOD** has been exhibited in Milano (I) during the universal expo in 2015. **FUTUROTTEXTILES MIX** "Interactive Textiles" has been introduced at FUTEX 2017. **FUTUROTTEXTILES** is getting ready for next World Exhibition in Dubai 2021-2022.

Pacte PME (and Pacte PME International) facilitate and increase the relationship between SMEs/SMIs, key accounts and public services.

The next one is under process!

The dedicated network of the innovation and business clusters.

The Global Fiber Congress in Dornbirn, Austria

ETT CLUB – The European Technical Textiles Club gathers the European Technical Textiles associations from Belgium, Germany, France, Italy, Spain, Portugal, Austria, Switzerland, the Netherlands to organize the EU lobbying, to increase the business relationship between the clusters and their companies.

EuraMaterials is the reference cluster in Northern Europe for the materials processing industry. EuraMaterials facilitates meetings and exchanges between those involved in textiles, paper and cardboard, plastics, glass, composites, ceramics, wood, metals, etc; to create opportunities, boost innovation, foster creation and inspire transformation.

Technical textiles applications

Agrotech

Horticulture and landscape, agriculture and forestry, animal husbandry, etc.

Buildtech

Membrane, light-weight and solid construction, civil engineering and industrial construction, temporary construction, etc.

Clothtech

shoe and clothing manufacture

Homotech

furniture, upholstery and room design, carpets, floor coverings, etc.

Indutech

Filtration, cleaning, mechanical engineering, chemical industry, electrical industry, seals, sound absorption products, etc.

Medtech

Hygiene medicine, rescues organization equipment, etc.

Mobiltech

Automobile and shipbuilding, aircraft and space travel, rail vehicles, motorcycle and bicycle construction, etc.

Oekotech

Environmental protection, recycling, disposal, etc.

Protech

Protection of persons and properties, etc.

Packtech

Packaging, protective cover systems, sacks, big bags, storage systems, etc.

Sporttech

sport and leisure equipments and clothing

Geotech

civil engineering, earth and road construction, dam engineering, dump construction, ground isolation, drainage, systems, etc.

CLUBTEX contact

Sébastien PAILLET (Achille BAYART & FERLAM TECHNOLOGIES) - President

Jean-Marc VIENOT – General Secretary

Amandine SOUPY – Textile Engineer in charge of Technical Textile Network Activities

Karine WALLOIS - International Business Manager
